Summary:

Into the Wild, written by Jon Krakauer, is a non-fiction book about the life and death of Christopher McCandless, a young man who ventured into the Alaskan wilderness in April 1992. McCandless had graduated from college two years prior and had been living a nomadic lifestyle, traveling around the United States and Mexico. He had changed his name to Alexander Supertramp and had cut off all contact with his family and friends. He eventually made his way to Alaska, where he planned to live off the land and experience the wilderness.

The book follows McCandless's journey, from his departure from South Dakota to

his eventual death in Alaska. Along the way, Krakauer interviews people who knew McCandless and pieces together his story. He also examines McCandless's motivations for his journey and his ultimate demise. Krakauer ultimately concludes that McCandless was an idealistic young man who was searching for something that he could not find in the modern world.

Krakauer also examines the dangers of the wilderness and the risks that McCandless took in his journey. He argues that McCandless was unprepared for the harsh conditions of the Alaskan wilderness and that his death was a tragic accident. He also argues that McCandless's story is a cautionary tale about the dangers of the wilderness and the importance of being prepared.
