Summary:

The Face of Battle by John Keegan is a book that examines the experience of soldiers in three major battles: Agincourt in 1415, Waterloo in 1815, and the Somme in 1916. Keegan looks at the experience of the soldiers from the perspective of the individual, rather than from the perspective of the generals or the politicians. He examines the physical and psychological effects of battle on the soldiers, and how they coped with the fear, exhaustion, and horror of war. He also looks at the tactics used by the generals, and how they affected the outcome of the battles.

Keegan begins by looking at the Battle of Agincourt, which was fought between the English and the French. He examines the tactics used by the English, which included the use of the longbow and the use of the terrain to their advantage. He also looks at the psychological effects of the battle on the soldiers, and how they coped with the fear and exhaustion of battle. He then looks at the Battle of Waterloo, which was fought between the French and the British. He examines the tactics used by the British, which included the use of the cavalry and the use of the terrain to their advantage. He also looks at the psychological effects of the battle on the soldiers, and how they coped with the fear and exhaustion of battle.

Finally, Keegan looks at the Battle of the Somme, which was fought between the British and the Germans. He examines the tactics used by the British, which included the use of tanks and the use of the terrain to their advantage. He also looks at the psychological effects of the battle on the soldiers, and how they coped with the fear and exhaustion of battle. He concludes by looking at the overall experience of the soldiers in battle, and how they were able to cope with the fear and exhaustion of war.

The Face of Battle is an important book that examines the experience of soldiers in battle from the perspective of the individual. It looks at the physical and psychological effects of battle on the soldiers, and how they coped with the fear, exhaustion, and horror of war. It also looks at the tactics used by the generals, and how they affected the outcome of the battles.
