Summary:

The Complete Calvin and Hobbes is a collection of every comic strip from the popular newspaper comic by Bill Watterson. The book contains over 3,000 comics that span 10 years of publication, from 1985 to 1995. It also includes an introduction written by Watterson himself, as well as essays about his work and its impact on readers.

The book begins with a brief introduction in which Watterson explains why he chose to end the series after ten years. He talks about how he wanted to keep the quality of his work high and not let it become stale or repetitive. He also expresses gratitude for all those who supported him throughout the run of Calvin and Hobbes.

The majority of the book consists of strips featuring Calvin, a six-year-old boy with an active imagination; and Hobbes, his stuffed tiger companion who comes alive when no one else is around. Together they explore their world through adventures both real and imaginary. Alongside them are other characters such as Susie Derkins (Calvin's classmate), Moe (the school bully), Miss Wormwood (Calvin's teacher) and Rosalyn (the babysitter).

Throughout these strips we see themes such as childhood innocence, friendship between unlikely companions, philosophical musings on life's big questions, satire on modern society's foibles—all presented in a humorous way that appeals to adults just as much as children.

In addition to the comics themselves there are several essays included at various points throughout The Complete Calvin & Hobbes which provide insight into Watterson's creative process behind each strip. These essays discuss topics such as how he developed certain characters or storylines over time; what inspired him while writing; how he used color in his artwork; etc.

<P >Overall The Complete Calvin & Hobbes provides an entertaining look at one man's journey through creating something special that has touched so many people across generations—and will continue to do so for many more years to come.</P
