Summary:

The Test of My Life: From Cricket to Cancer and Back is a memoir by Indian cricketer Yuvraj Singh. The book chronicles his journey from being an international cricket star to battling cancer, and then making a triumphant return to the game he loves. It begins with Yuvraj's childhood in Chandigarh, India, where he was born into a family of sportsmen. He recounts how his father pushed him hard to excel at cricket, while also teaching him important life lessons along the way. As he grew older, Yuvraj became one of India's most successful cricketers ever—winning multiple awards and accolades for his performances on the field.

In 2011, however, everything changed when Yuvraj was diagnosed with cancer (germ cell seminoma). In this section of the book, he talks about how difficult it was for him to come to terms with this diagnosis and what it meant for his career as a professional athlete. He also shares details about his treatment process—from chemotherapy sessions in Indianapolis to radiation therapy back home in Mumbai—and how these experiences helped shape him both physically and mentally.

Throughout The Test of My Life are stories from other people who have gone through similar struggles as well as words of encouragement from friends and family members that kept Yuvraj going during some very dark times. After months of treatment and recovery time away from cricketing duties, Yuvraj made an incredible comeback in 2012 when he played against New Zealand at Chennai's MA Chidambaram Stadium—a momentous occasion that marked not only his return but also symbolized hope for those fighting their own battles against cancer.

The Test Of My Life is ultimately an inspiring story about resilience in the face of adversity; it serves as a reminder that no matter what life throws our way we can always find strength within ourselves if we just keep pushing forward.</p></div>
